

AquaBond®

Underwater Repair Compound

Sticks to just about ANYTHING, Wet or Dry!

No Need to Drain the Pool!

UW-5000 (OFF WHITE)

Original

UW-5200 (GRAY)

New Gray Color

Professional, two-part epoxy designed to make long-lasting underwater repairs to swimming pools, spas, fountains and water features.

- A super-versatile underwater glue for pools and spas
- Bonds a wide range of materials including ABS, PVC, flexible PVC, metal, glass, ceramic, fabric composites, wood, plastics and concrete
- High-strength, two-part epoxy adhesive
Mixes, applies and cures underwater
- Stands up to damaging chemicals and corrosion
- Paintable and sandable
- Hardens in 4 hours
- Solvent free, low odor
- Dispose in regular trash
- Easy no-mess mixing and application
- Resealable, multi-use cartridges
